Profile

Tobias P. Goebel is a free journalist and advisor on self-driving vehicles, robotics and AI, based in Boston and working in German and English. Before going independent in 2025 he spent more than 20 years in enterprise software, moving from engineering and consulting to technical product marketing for conversational AI and IoT. He moved from Germany to the US in 2010.

Current work (independent since 2025)

- **TeslaTobi (German YouTube channel)**: commentary on autonomous driving, robotics and AI, mainly Tesla and its competitors.
- **TechTalkTobi (English YouTube channel)**: robotics, self-driving vehicles, and AI and society.
- Comment, moderation and on-site event reports
- Paid advisory briefings on what autonomous driving systems do in US daily use and what national, EU and UNECE rules allow.
- Independent research on self-driving vehicle technology and systems; AI; robotics

Career highlights

- **KORE** – Senior Director, Product Marketing (promoted from Director in 2024); led global product marketing and built the team.
- **Twilio** – Principal Product Marketing Manager, IoT, from 2020; led the launch of Twilio Microvisor, a device builder platform, in late 2020. Twilio Magic Award, 2022.
